## Education

2023

BTech

7.1 CGPA

west godavari institute of science and engineering

2020

Diploma

78%

SASI Institute of Technology and Engineering

2017

SSC

8.5 CGPA

Vignan Public School

## Skills

- FrontEnd Technologies- Html, Css, Bootstrap and Angular
- Programming Languages - Java, Javascript
- Backend Technologies - Spring, Spring framework, Rest Api
- Database - Mysql
- Tools Known- Git and Github, Figma, Ms office

## Language Known

- English, Telugu, Hindi

## Projects

2023

### Online E-commerce Fashion Store

Developed a responsive web application using Angular for an online e-commerce store, allowing users to browse products, add items to cart, and complete secure transactions.

**DeployLink:** <https://fashionstore-f2513.web.app/>

2023

### Responsive Movie website using HTML, CSS, and Bootstrap

Developed a responsive website for a fictional movie website, incorporating modern design principles and utilizing HTML, CSS, and Bootstrap framework.

**DeployLink:** <https://moviebootstrap-7e5bb.web.app/>

2023

### Online Shopping website design using Figma

Designed a fully functional shopping website using Figma, a collaborative design tool, to create wireframes, mockups, and prototypes.

Developed a simple UI/UX design of shopping website by using only figma.

**Link:** <https://github.com/AkashSamatam/figma-project.git>

2023

### Students Online Marks Portal

Developed marks portal for the inserting the data like add the marks, deleting marks and update marks. Here we can perform the **CRUD** operation.

Designed the website using the following technologies Jsp, Jstl, Servlets, Jdbc, mysql

2023

### Rest Api creation for the front end Connection

Developed the crud operation to integrate the rest api with libraries like Angular or React. To Performance the Dynamic operations like Inserting, Deleting, Updating, Fetching the data

Designed the API using Hibernate, Lombok, Mysql, JPA,

2022-2023

### Final Year Project

**EXPERIMENTAL AND TESTING OF CARBON JUTE FIBER REINFORCED A CRAB SHELL POWDER USING HAND LAY UP TECHNIQUE**

Conducted a research project in the final year of studies focused on experimental and testing aspects and Investigated the feasibility of utilizing carbon jute fiber reinforced with crab shell powder as a composite material. Implemented the hand lay-up technique to fabricate composite specimens and conducted testing to evaluate their mechanical properties.

## Interests

---

- Fitness
- Travelling
- Food and Nutrition
- Self Improvement

## Soft skills

---

- Excellent verbal communication skills
- Time Management
- Adaptability
- Good problem solving skills.
- Smart working and analytical thinking skills

## Digital Badges

---

## Certifications:-

---

### - Java Full Stack Certification

Issuing Authority: IT Globe

Date Earned: [July] [2023]

Details: Completed an intensive [6 months] Java Full Stack certification program, covering front-end and back-end development, database management, and deployment of web applications. Demonstrated proficiency in technologies such as Java, Spring Framework, HTML/CSS, JavaScript, Angular and MYSQL.
